(1) With the exception of "Total Population (100% data)", all profile variables are based on the non-institutional population (weighted 20% sample data). In some instances, due to weighting, suppression and/or random rounding, it is possible for the non-institutional population to be higher than the total population (100% data).

(2) Common-law category refers to persons who live together as a couple but who are not legally married to each other. These persons can be of the opposite sex or same sex. Common-law category is not mutually exclusive from legal marital status, and may include persons who are single, separated, divorced, widowed, and/or same-sex partners.

(3) Includes private households only.

(4) Refers to a married couple (with or without children of either or both spouses), a couple living common-law (with or without children of either or both partners) or a lone parent of any marital status, (with at least one child living in the same dwelling). A couple may be of opposite or same sex. 'Children' in a census family include grandchildren living with their grandparent(s) but with no parents present.

(22) Highest certificate, diploma or degree' refers to the highest certificate, diploma or degree completed based on a hierarchy which is generally related to the amount of time spent 'in-class.' For postsecondary completers, a university education is considered to be a higher level of schooling than a college education, while a college education is considered to be a higher level of education than in the trades. Although some trades requirements may take as long or longer to complete than a given college or university program, the majority of time is spent in on-the-job paid training and less time is spent in the classroom.

(23) 'Field of study' is defined as the main discipline or subject of learning. It is collected for the highest certificate, diploma or degree above the high school or secondary school level.
