

TRA Service Enhancement: *TRA launches electronic filing for corporate taxes*

Would you like to file your corporate tax return at more convenient times and to know immediately that Tax and Revenue Administration has received it? Do you want your return processed faster and at less cost than handling, printing and mailing paper returns?

If you answered “yes,” then I’m happy to tell you we can accommodate you. As of July 2011, Tax and Revenue Administration (TRA) is offering Alberta corporations the option to file their income tax returns in electronic format. To find out more about this new service, see the “CIT net file” article in this edition of *Tax Notes* by clicking on the link below. I would like to encourage all Alberta businesses to take advantage of this simpler and faster means of filing their tax returns.

From time to time, we look to our *Tax Notes* readers to provide us with ideas about the Alberta tax-related topics that interest you. With this issue, we are asking for your input by completing a survey. It’s brief, electronically fillable, and will take only a few minutes of your time to complete.

Attach your completed survey to an email and send it to [Nadia Jolobova](#) by October 31, 2011. We will compile the results and report on them in the next issue of *Tax Notes*. Your responses to the survey will be kept confidential, released only as part of an overview of all responses received. We appreciate your participation.
